SIAC Congress Programme Highlights

(To be confirmed)

The Future of International Arbitration is now. As a premier, global arbitral institution, at the forefront of cutting edge developments in the law and practice of international arbitration, SIAC has embraced its role as a key stakeholder in international arbitration. The SIAC Congress 2018 brings together the judiciary, distinguished members of the SIAC Board and SIAC Court of Arbitration, and other eminent members of the international arbitration community, to discuss future directions for international arbitration. In the course of the conference, we will discuss SIAC’s innovative cross-institution consolidation protocol, critically examine SIAC’s track record in delivering on its mission to ensure that the awards rendered by tribunals are valid and enforceable, and engage in a robust debate on whether arbitral institutions are best placed to chart the future of international arbitration.
